

FARKLE

- DELUXE -

Object

The player with the highest score above 10,000 points on the final round of play wins!

How to Play

Each player takes turns rolling the dice. When it's your turn, you roll all six dice at the same time. Points are earned every time you roll a 1 or 5, three of a kind, three pairs, a six-dice straight (1,2,3,4,5,6), or two triplets.

If none of your dice earned points, that's a Farkle! Since you earned no points, you pass the dice to the next player.

If you rolled at least one scoring die, you can bank your points and pass the dice to the next player, or risk the points you just earned during this round by putting some or all of the winning die (dice) aside and rolling the remaining dice. The remaining dice may earn you additional points, but if you Farkle, you lose everything you earned during the round.

Scoring is based only on the dice in each roll. You cannot earn points by combining dice from different rolls. You can continue rolling the dice until you either Pass or Farkle. Then the next player rolls the six dice until they Pass or Farkle. Play continues until it is your turn again.

The final round starts as soon as any player reaches 10,000 or more points.

Scoring

The scoring dice are (in a single roll):

Single 1 spot	: 100
Single 5 spot	: 50
Three of a kind of 1 spots	: 1000
Three of a kind of 2 spots	: 200
Three of a kind of 3 spots	: 300
Three of a kind of 4 spots	: 400
Three of a kind of 5 spots	: 500
Three of a kind of 6 spots	: 600
Three pair	: 750
Straight (1-2-3-4-5-6)	: 1500
Two triplets	: 2500
Three Farkles in a row	: Lose 1000

Triple Yahtzee

Triple is played following the standard rules with three exceptions

The first exception is that your scorecard has three rounds active at the same time, allowing you to score anywhere across the three rounds at any time.

The second exception is that your scores for the second round will be multiplied by two, and the scores for the third round will be multiplied by three. This naturally means that the targets for the bonus will also be higher (63 for round 1, 126 for round 2, 189 for round 3)

The final exception affects Yahtzee Bonus Points and Yahtzee Joker. You may ONLY use Yahtzee as a joker if all three yahtzee boxes have been filled and if all three of the corresponding number boxes have been filled on the left-hand-side too! As for yahtzee bonus points, if all three yahtzee boxes have a score of 50 or greater, and you roll a subsequent bonus, you will score 100 points multiplied by the round that you score in, IF you score more than zero.

Example: all three yahtzee boxes are filled, with 50, 100, 150 respectively. I then roll five sixes but all three sixes boxes are filled, so I choose to place the yahtzee in round 3 high straight, which is open. I score 40 for a normal high straight, plus 100 bonus points for the fourth scored yahtzee, so a total of 140, multiplied by 3 because it's in round 3, = 420 for that turn. Wow!
